## Welcome to the 2019 Summer Institute on Theology and Disability!

We are glad you are here. We are particularly appreciative of the hospitality of both Western Theological Seminary and Hope College on our return to their campuses after our 2016 Institute was held here. Did you know that this is the 10<sup>th</sup> year of the Summer Institute? Many of you who are here are new to the Summer Institute. You have received information about what to expect, but the delight and magic of the Summer Institute is that the whole is always greater than the sum of its parts.

Whether new or alums who have come back, know that all questions are welcome. We trust that you will help everyone feel at home. A special thanks to Lynn Swedberg who helps coordinate the accommodations and supports that individuals need, along with the help of our scholarship recipients. But we count on community to help one another! Put the dots on your badges so we can easily know who has been here before, and who is here for the first time.

We have incorporated many suggestions from last year, but the Institute is truly what the community present makes of it. Every location we have been at has its strengths and weaknesses. There will be both here. We keep on learning. So, welcome!

### **“Thank You!” to the Team that is Responsible for the 2019 Institute...**

Join us for a discussion that introduces the key elements in a community of belonging and discover some very practical strategies and tools to turn those welcome statements into a reality in your congregation. ## Monday Afternoon Breakout Sessions

**1:45-3:00 From Longing to Belonging Breakout Sessions**

**Western Theological Seminary**

- **Shelly Christensen, From Longing to Belonging: Continuing the Conversation** **Room 155**  
Continuing the conversation from the morning plenary and engaging the practical suggestions from Shelly's new book on how to include people with disabilities and mental health conditions in your faith community.
- **Sarah Barton, Ben Conner, and Carlos Thompson, From Longing to Belonging: Theological Education** **Room 106**  
This session explores ways that theological institutions can move beyond ableist biases.
- **Erik Carter, Incomplete without You: The Church and People with Disabilities** **Room 159**  
What does it really mean to belong? This presentation will spur deeper reflection about the ways in which churches might welcome and weave people with developmental disabilities and their families more fully into the life of the community. In moving from barriers to belonging, we discover the power of life lived together and how those at the margins are indispensable to the flourishing of everyone.
- **Jill Harshaw, From Longing to Belonging: Intellectual Disability** **Room 104**  
When we think about people with intellectual disabilities and their faith communities, is inclusion still a useful concept? This workshop explores what it might mean to belong in ways that surpass our images of inclusion.
- **Barb Newman, From Longing to Belonging: Enjoying the Shared Language of Worship with Persons Experiencing Dementia** **Room 105**  
How does the language of worship provide common place to plant our feet with persons experiencing dementia? This session will explore some practical ideas for worshipping together with people with dementia.
- **John Swinton, From Longing to Belonging: Mental Health Challenges** **Room 019**  
The session will explore the spiritual dimensions of mental health challenges with a view to examining what kinds of community we need to be to enable the body of Christ to live life in all of its fullness even in the midst of enduring mental health challenges.
- **Alex Kimmel, "The Self Determinator", From Longing to Belonging: Neuro-diversity** **Room 166**  
This interactive session features applications of the Serenity Prayer and an introduction to COG. The Culture of Gentleness (COG) has four supporting pillars: Safe, Loved, Loving and Engaged. At its core is the philosophy that everything is based off establishing a relationship. This philosophy has potential for positive outcomes in all connections. This is especially true when approached with the understanding of neurodiversity, or the acceptance and celebration of those that operate other than what most of the world considers to be normal. Alex Kimmel will lead attendees, through PowerPoint, video clips and small group discussion opportunities, to an understanding of individualized supports including sensory and communication needs as well as the importance of acceptance and faith. Be ready for laughter and an opportunity to update your thoughts on neurodiversity!

## Tuesday-Thursday Schedule

### *A note about the schedule for Tuesday through Thursday:*

Our general flow is Meditation in Maas Hall, Plenary, Morning Breakout Sessions, Lunch, Plenary after Lunch, Afternoon Breakout Sessions, and Closing Meditation in the Western Seminary Chapel. The PhD Symposium runs in both the morning and afternoon breakout session times, starting on Tuesday. We have tried to organize the workshops so that those connected to a similar theme are on separate days and times, so participants can make their own workshop track depending on a particular interest (*e.g. inclusive worship, theology, families, etc.*) but we want to note that workshop subject matter will overlap. Thus, we are not designating strands. Our breakout sessions don't fit easily in one box, as they should not. We do not have a mental health strand this year because there were not enough proposals in that area.

If you want to see the complete descriptions on the plenary and breakout session speakers and their presentations, see the copies at the Registration Desk or go to:

[faithanddisability.org/2019-summer-institute/](http://faithanddisability.org/2019-summer-institute/)

All will be held at Western Theological Seminary's Main Building. (See the map at the end of the program.)

## Summer Institute on Theology and Disability: Mission and Vision

**Our Mission is** to foster diverse and authentic interfaith conversations at the intersection of theology and disability.

**Our Vision is** that international theological learning and religious practices embrace the gifts, needs, and contributions of people with disabilities and their families.

We work to achieve our vision through collaboratively hosting an accessible and inclusive **four-day institute** that gathers together leading scholars, writers, faith leaders, advocates, and others committed to advancing inclusive ministries and faith supports.

*The Institute celebrates, explores, and investigates the ways that:*

- Disability impacts all major theological disciplines as well as the many dimensions of religious life and faith community practices.
- Theology and practice mutually inform and support one another.
- Diverse perspectives enrich and inform theological formation and religious practice.

\*\*\*

As the Institute develops, we have become more aware of the ways we seek to live out this Mission and Vision. Hence our frequent statement that we invite ‘each person present to speak out of the particularity of their own faith tradition while also respecting the traditions of all other attendees.’ We also invite you to share any concerns with the Coordinating Team.

In this day and time, we are also moving toward more specific guidelines and policies. To this end, we have decided to be explicit about issues of harassment and discrimination, as well as to respect the policies of each of our institutional hosts. Thus:

The Summer Institute for Theology and Disability encourages a community that is a welcoming place for all without harassment and/or discrimination.

Housed at two institutions of higher education, the Institute follows the policies of each institution regarding reports of discrimination within their jurisdiction. See those policies here:

Hope College Policy: [hope.edu/offices/title-ix/index.html](http://hope.edu/offices/title-ix/index.html) and WTS, Title IX policy: [www.westernsem.edu/title-ix-resources/](http://www.westernsem.edu/title-ix-resources/)
